

BILIM AI

Core Principles

BILIM AI

- **Core Philosophy:** 'We don't just test knowledge — we prove it through practice.'
- **Mission:** Revolutionizing pedagogical assessment through active performance verification.
- **Startup Focus (2026):** Bridging the gap between theoretical understanding and real-world application.
- **Key Advantage:** Replacing passive testing with iterative, evidence-backed mastery.

WHO ARE WE?

Transforming static materials into dynamic learning experiences

- **Content Generation**

Seamlessly transforms PDF, DOCX, and PPTX files into interactive lessons.

- **SHOGIRD AI**

Advanced verification engine that assesses and confirms student comprehension.

- **Knowledge MRI**

Analytical tool that identifies specific knowledge gaps in real-time.

- **Dedicated Interfaces**

Tailored dashboards for teachers, students, and parents.

We don't just deliver learning content — we show what students truly understand.

THE ILLUSION OF KNOWLEDGE

Why traditional metrics fail to measure genuine learning

Blind Memorization

Traditional testing and homework metrics fail as reliable signals of learning, often conflating task completion with deep comprehension.

Lack of Transparency

Grading systems reduce complex skill acquisition into abstract numbers, obscuring actual mastery through a lack of granular profiles.

A persistent 'illusion of knowledge' leaves learners ill-equipped for real-world application.

MARKET SIZE

TAM, SAM, and SOM Analysis

TAM: Total Addressable Market

\$340B; 264M students globally.

SAM: Serviceable Available Market

\$15B; 1.43M students and 222 institutions in Uzbekistan.

SOM: Serviceable Obtainable Market

\$45M; Targeting the first 20 universities and 200K students.

FEATURES: FREE VS. PREMIUM

A comparison of plan capabilities

Feature	Free Plan	Premium Plan
Courses	1 Demo Course	Unlimited
AI Assistance	Limited Questions	Full SHOGIRD AI Sessions
Learning Analytics	Basic Tracking	Full Analytics for Teachers/Parents
Advanced Tools	N/A	Knowledge MRI Concept Graphs

OUR SOLUTION — WHY US?

Moving Beyond Traditional Learning

Deep Course Creation

Instantly transform internal documentation and files into structured, professional-grade courses.

SHOGIRD AI

Move beyond passive consumption with AI-driven, real-time adaptive assessment.

Knowledge MRI

Navigate learning through a 3D knowledge map to visualize concept relationships and mastery.

Real-Time Insights

Data-driven feedback loops providing immediate visibility into learner performance and institutional knowledge health.

BUSINESS MODEL

Monetization and Value Delivery Framework

Strategic Pillars for Sustainable Growth

Revenue Streams

Targeting B2B segments (Schools, Universities, Corporates) and B2C premium individual subscribers.

Monetization Strategy

Predictable SaaS subscriptions and enterprise-grade API integration licensing.

Value Delivered

Driving 40% time savings and ensuring 100% proof-based learning outcomes.

DELIVERING MEASURABLE EFFICIENCY AND HIGH-QUALITY LEARNING OUTCOMES.

Our model balances scalable B2B partnerships with direct-to-consumer value to ensure long-term platform viability.

ROADMAP

Strategic milestones for SHOGIRD AI development and scaling

Now

Foundation & Validation

MVP is live; SHOGIRD AI in closed pilot phase.

1 Year

Growth & Monetization

Achieve sustainable monetization; target 10,000 active users.

6 Months

Expansion & Institutional Access

Launch of Knowledge MRI; pilot deployment across 25 schools.

3 Years

Scaling & Systemic Impact

Scale B2B model and execute national-level integrations.
